Dear Hiring Manager,

I am writing to express my interest in joining your team as a Software Developer. With a strong foundation in the .NET ecosystem and SQL Server development, I bring hands-on experience building robust, full-stack applications — from database architecture and backend logic to responsive front-end interfaces.

In my most recent role, I developed and deployed custom desktop applications and database solutions that streamlined internal workflows and improved data accessibility. Beyond professional experience, I have independently designed and delivered several full-stack projects using Angular, ASP.NET Core, and SQL Server, including a booking platform with an integrated AI Agent built on Semantic Kernel, reflecting my drive to keep expanding my skills into emerging technologies.

I am detail-oriented, adaptable, and comfortable working within distributed teams to deliver scalable, maintainable software. I would welcome the opportunity to bring this same dedication and technical versatility to your organization.

Thank you for considering my application. I look forward to the opportunity to discuss how my background and skills align with your team's needs.

Sincerely,
Maryam Al Obaidi
